

The Costa Coffee Break

Gravity FM is always grateful to the local businesses that help to keep us on the air through their generous support. Costa Coffee in Grantham and Sleaford are just one example of how a partnership can bring mutual benefits to both organisations.

Costa Coffee were keen to highlight their involvement in the communities local to their stores. Having been approached by Gravity FM, they were keen to enter a partnership for the benefit of local volunteers. Costa Coffee now sponsor a daily Costa Coffee Break feature in the Girl Talk show every weekday morning. The volunteers here at Gravity FM also benefit from coffee that is provided to the station for their refreshment. With a prime high street location, Costa Coffee also work with us to provide facilities allowing us to run outside broadcasts from the centre of Grantham and Sleaford.

Following the success of this partnership, the directors of Gravity FM and management of Costa Coffee met earlier this year to discuss the further development of this partnership. Plenty of plans were discussed and Costa's management enjoyed their visit to our studios and offices on Riverside Walk. Details are now being finalised for a new stage in our partnership which we look forward to developing in coming months.
